

KAWASAKI ZX-10R

SLIP-ON EXHAUST SYSTEM + optional link pipe

KAWASAKI ZX-10R

SLIP-ON EXHAUST SYSTEM + optional link pipe

DESCRIPTION

Our sporty and lightweight SLIP-ON system offer a great balance between price and performance and represent the first step in the exhaust system tuning process. The change will also be visual as our muffler perfectly fit the exterior line of the ZX-10R and add a clean racing image. The muffler is made of titanium, which gives a special hi-tech touch and reduces weight. Slip-On in combination with optional titanium link pipe is track day oriented exhaust, with racing sound and improved power output.

PERFORMANCE

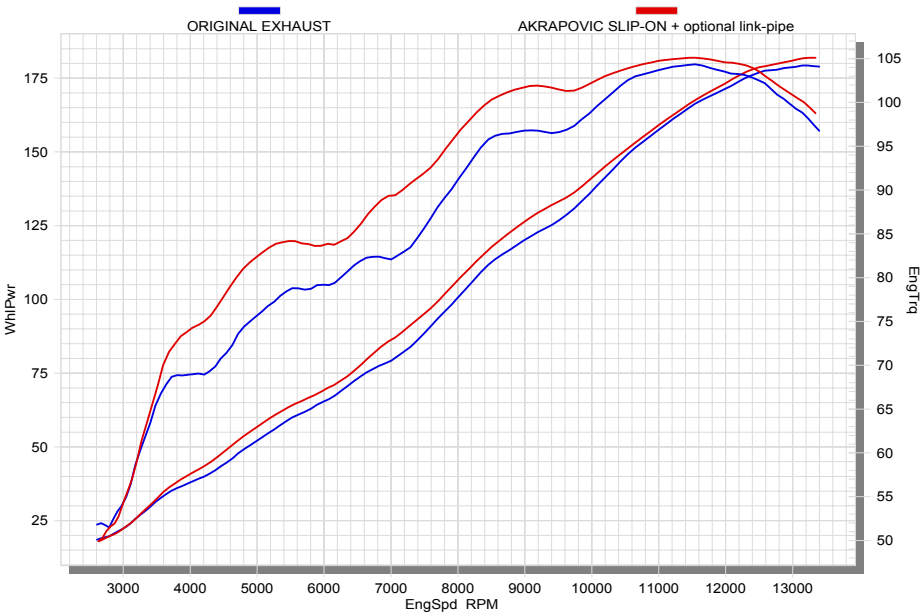

Measurements of the Akrapovic SLIP-ON system with optional link pipe on the KAWASAKI ZX-10R (with muffler insert):

Power & Torque: the exhaust system modification with the SLIP-ON street legal system results in a major boost in performance, delivering 182 HP at 13300 rpm on the back wheel. But the increased power isn't available just at the top of the range; the system shows its quality from 3500 rpm already up through the entire rpm range. Max. increased power between the Akrapovic and the stock system is 5.8 HP at 7000 rpm. Besides this, the torque is substantially higher in a lower rpm area at 3500 rpm and from middle to high rpm area.

	PERFORMANCE				
	stock	AKRAPOVIC		max. increased power	
max. rear wheel power HP / rpm (measured on SuperFlow Cyle Dyn)	179.3 / 13150	182 / 13300		5.8 / 7000
